Strasburgo PVC

Il PVC, materiale resistente ed estremamente duttile, è entrato di diritto anche tra i rivestimenti delle porte di sicurezza.

Può avere colorazione uniforme o riprodurre tonalità e trame del legno. Vighi ha selezionato le finiture che meglio si coordinano con quelle delle finestre realizzate con questo materiale.

finiture	
vinaccia 119	
rosso 18	
verde 36	
grigio chiaro 210	
sabbia classico 08-120	
bianco classico 68	
chiara 630
